

# Managed Maintenance

Outsource vehicle maintenance

The Avis Fleet Managed Maintenance solution allows you to outsource the daily details of maintaining your vehicles to a team of technicians that are specially trained for the job.

You save on unnecessary maintenance expenses and can rest assured that your vehicles are being maintained with manufacturer approved parts.

## Leave it to the experts

Our technicians at the Avis Fleet Maintenance Call Centre are trained to approve only necessary maintenance requests that comply with manufacturer standards. For a fixed monthly premium, you get:

1. Fully scrutinised maintenance requests checked against Avis's database of parts, labour and service operators.
2. The assurance that jobs covered by warranties and service or maintenance plans are carried out in line with them.
3. Thoroughly assessed job cards and invoices before any payments are made.

4. Monthly consolidated tax invoices.
5. Provision of exception reports.
6. Monthly fleet reports that highlight cost savings.
7. Monthly management reports of fixed and variable costs.

## Accelerate your fleet

By choosing the Avis Fleet Managed Maintenance solution, you improve your business in these ways:

1. You reduce the risk of non-compliance by using only manufacturer-approved parts.
2. You avoid overspending on maintenance and services by trusting our technicians to approve only regular maintenance and service intervals as set out by the manufacturers.
3. You gain full traceability of your fleet's maintenance and service history.
