

Traffic Fine Management Solution

Takes control of the
management of your fines

With the imminent introduction of AARTO (Administrative Adjudication of Road Traffic Offenders Act) Avis Fleet has developed the most user friendly, cost effective and operationally viable Traffic Fines Management Solution (TFMS) product in the market that is fully in line with legislation. The Avis Fleet TFMS product addresses the risks imposed by AARTO to all company proxies and was developed to ensure that both Avis Fleet and its Customers comply not only with AARTO, but also the National Road Traffic Act.

What does TFMS include?

- Provides the Customer with up to date infringement notices
- Back Up and updating of all driver information accessible through Avis Fleet's online portal
- Comprehensive reporting infrastructure offering the following reports:
 1. Status of Infringements
 2. Redirected Fines
 3. Pending Fines
 4. Fines Charged Out

What is in it for you?

- Risk mitigation for your company and proxy
- Reduced administrative burdens
- Consolidated fleet costs and reporting
- Driver accountability for both AARTO and CPA violations
